

RCI PRINCIPLES CLIVE MINERS - CEO & DESIGN DIRECTOR

Clive started Rich Creation International Ltd [RCI] in 1980 and, at times, has had over 100 staff working on various projects. Clive's unique expertise has evolved over many years and began in model building and in creating original and challenging stage sets for various uses. These modest beginnings have grown over the years into larger projects that range from hotel and casino installations to shop fit outs, exterior signage and external to internal special experiences to create a wonderful and often inspirational "sense of arrival" either to a building or within different areas of a property. Clive, in combination with Charles, Kenny and Anette, provides a comprehensive range of capability that can be delivered by RCI.
